# DISCUSSING THE SERIES

**Everyone should be scared—really scared—and that means you! Five kids—the Animorphs—are Earth’s only hope against a secret invasion by a race of terrifying parasitic aliens called Yeerks. Can the Animorphs defeat the Yeerks—and still have time to be normal kids?**

Stories of alien invasion have been common in science fiction novels and movies for over a century. *The War of the Worlds* by H. G. Wells set the standard, and has been revived over the years through a famous radio play and two movie versions. The theme has been explored by many other famous authors such as Isaac Asimov, Ray Bradbury, John Christopher, Arthur C. Clarke, and Robert Heinlein, and in movies such as *Invaders from Mars*, *The Thing from Another World*, and *Invasion of the Body Snatchers*, and in TV shows like *Battlestar Galactica*, *Dr. Who*, *Star Trek, V*, and *The X-Files*. In the video game, *Destroy All Humans!*, gamers play war-like extraterrestrials seeking to add Earth to its Galactic Empire.

Now, in the Animorphs series, five young people—Jake, Marco, Cassie, Rachel, and Tobias—and one alien, Aximili-Esarrouth-Isthill (nicknamed Ax)—obtain the ability to morph into any animal they touch. They name themselves “Animorphs” and use their ability to battle a secret infiltration of Earth by the Yeerks. The Animorphs take turns narrating the books, telling their story of the secret war through each of their perspectives.

**As you read these books you can discuss many themes that run through them—**such as dehumanization, growing up, innocence, leadership, morality, responsibility, and war. Other themes you can explore include:

*Alien infiltration.* This popular variation of the alien invasion theme is at the core of the Animorphs stories. The Yeerks are parasites that take over and control human hosts. Because the human hosts are normal in appearance and demeanor, it is difficult for the Animorphs to detect and identify who are the invaders among them.

*Underdog stories.* Everyone identifies with the underdog—and who are better examples than five kids trying to thwart an entire race of alien invaders with advanced technologies and superhuman powers?

*Parasites.* The Yeerks are terrifying parasites from space—but Earth has also spawned its own species of parasites. Considering humans’ unsustainable exploitation of the Earth’s resources and indifference to its care, can the human race itself be considered a parasitic species? In the long run, are we superior to the Yeerks—or terrifyingly similar to them?

*Human superiority to animals.* Are humans superior to other animals? Only by becoming animals can the Animorphs acquire the amazing abilities to fly, live underwater, or navigate by scent or radar. Who’s smarter?—and better suited to its environment?—us or them?

## ABOUT THE BOOKS

### BOOK 1: *THE INVASION*

The Earth is being invaded, but no one knows about it. When Jake, Rachel, Tobias, Cassie, and Marco stumble upon a downed alien spaceship and its dying pilot, they're given an incredible power—they can transform into any animal they touch. With it, they become Animorphs, the unlikely champions in a secret war for the planet. And the enemies they're fighting could be anyone, even the people closest to them.

### BOOK 2: *THE VISITOR*

If someone told you Earth was under a secret invasion, what would you think? Rachel had a hard time believing it, even after she and her friends saw what they saw—and received an incredible power to become any animal they touch. Rachel knew they were in danger from the start, so when it's suggested that they use their new powers to spy on one of their enemies, she rises to the challenge. But when she discovers what they'll have to do to win, will it be more than Rachel can handle?

### BOOK 3: *THE ENCOUNTER*

When Tobias and his friends were given the power to morph, they were also given an important warning: Never stay in a morph for more than two hours. But Tobias broke the time limit, and now he's trapped in the body of a hawk—forever. Tobias won't give up, though. They all made a promise to fight. So when he discovers an important Yeerk secret, he knows he has to do everything in his power to destroy it. But to do so, Tobias will have to contend with a part of himself that's wrestling for control. A part that isn't human.

### **BOOK 4: *THE MESSAGE***

It all started with the dreams, but Cassie didn't pay much attention to them. She and her friends have been having nightmares ever since they acquired their power to morph. But when Cassie discovers that Tobias has been having dreams too—the exact same dreams—about the ocean, and a voice that's calling to them for help, she decides it's time to start listening. Now she and the others have to figure out if the dreams are a message, or a trap.

### **BOOK 5: *THE PREDATOR***

Marco never wanted to be an Animorph. He didn't want the ability to change into any animal he touches. And he certainly did not want to be one of a handful of kids who are the planet's only defense against a secret alien army. His friends understand why he feels how he does. He's worried about his dad—the only family Marco has left. If anything happens to him, his father will be alone. But something is about to change for Marco, something that could finally give him a reason to fight.

### **BOOK 6: *THE CAPTURE***

It was bad when Jake found out his brother was one of them—a Human-Controller, a slave. But that was nothing compared to what he's dealing with now. When the Animorphs decide to visit the Yeerks' new base, it seems simple. But then they get caught and Jake falls—just for a moment—into the Yeerk pool. Now they're out, and his friends can't see it. To them he's just like normal. But Jake is screaming for help. His worst fear has finally come true. He's become the enemy.
